

also contains rca input for video/audio)

Front panel PCB:
(channel switches+tuner pots+msx reset/load/run buttons).

T501
transformer

When measuring resistance between transformer pins:
 -1,2 have about zero ohms between themselves
 -3,4,5 have about zero ohms between themselves
 -6,7,8,9,10,11 have about zero ohms between themselves
 -9,10,11 are connected to ground
 -3,5,10 have about zero ohms between themselves

4CEC PCB

4CEB PCB

4CEE PCB

4CED PCB

Tube neck PCB

NOTE! Separate black thick ground wires towards:
 -tube ground
 -tuner box metal
 -AV+ParallelPort input PCB

There is also thick black wire from digital RGB pcb to tuner box metal
